### About

Established in 1948, the American Academy of Neurology (AAN) is an association of more than 28,000 neurologists and neuroscience professionals dedicated to improving patient care through education and research.

AAN members are neurologists, board-certified medical doctors with specialized training in diagnosing, treating and managing disorders of the brain and nervous system such as multiple sclerosis, restless legs syndrome, Alzheimer's disease, narcolepsy, and stroke.

Due to the dynamic nature of medicine, AAN members need to stay current with the latest technology and research. They are an ideal target audience for a variety of offers and high-ticket items to help build, support and enhance their profession.

Note: Use of the AAN member list for surveys is not permitted, and AAN member email addresses are **not available** for rental.
